SUMMARY

Recent AWS re/Start bootcamp alumna with an AWS Solutions Architect Associate certification and a background in networking and software development. Experienced in building secure cloud solutions using Python, Terraform, and AWS (some GCP/Azure), with a focus on delivering resilient infrastructure that follows best practices. Passionate about building robust, security-first cloud solutions within a Junior Cloud/DevOps team, and expanding into DevSecOps in the future.

EXPERIENCE

Sparta Global

Nov 2023 – Aug 2024

Junior Software Developer Trainee Consultant

London, UK

- Collaborated within cross-functional Agile teams to implement software solutions, utilizing Git for version control and peer code reviews to ensure performance and compliance.
- Applied analytical problem solving to debug complex codebases and streamline technical deliverables, ensuring all project milestones met specifications.

Exponential-E

Jul 2019 – May 2020

1st Line Network Technician Internship

London, UK

- Managed the status of critical network infrastructure via SNMP monitoring tools, proactively triaging technical faults to maintain high performance and SLA compliance.
- Facilitated clear communication with stakeholders to resolve TCP/IP and DNS issues, translating technical data into statistics and actionable updates for the broader team.

PROJECTS

FastAPI Weather Dashboard [AWS, Terraform, Docker] (GitHub)

- Architected a "Zero Trust" serverless application using AWS ECS Fargate, securing the backend within private subnets and enforcing access via CloudFront with custom header validation.
- Automated a full-stack infrastructure with Terraform, implementing a multi-AZ VPC, ALB traffic routing, and a CI/CD workflow for Docker image deployment to Amazon ECR.

DevSecOps Flask Project [GCP, Terraform, Docker, Kubernetes, Trivy, Prometheus, Grafana] (GitHub)

- Architected a CI/CD pipeline using GitHub Actions and Trello for project management, automating the deployment of a Dockerized Flask app to Google Kubernetes Engine (GKE).
- Enforced a robust security posture by integrating Trivy for container vulnerability scanning and implemented real-time observability using Prometheus and Grafana for cluster health monitoring.

CERTIFICATIONS

2026 AWS Certified Cloud Practitioner

2026 AWS Certified Solutions Architect Associate

EDUCATION

Westminster Adult Education Service

Jan 2026 – May 2026

AWS re/Start Cloud Computing with AI Bootcamp

London, UK

- **AWS, Programming, Networking, Databases, Security, ML & Generative AI**

University of Hertfordshire

Sep 2017 – June 2022

2:1 Bachelor's Degree in Computer Science

London, UK

SKILLS

Programming & Scripting: Python, Bash, Shell Scripting, SQL, Git (Version Control)

Cloud Infrastructure: AWS (EC2, S3, VPC, IAM, RDS, Lambda, API Gateway, CloudFront)

Automation & DevOps: CI/CD Pipelines (GitHub Actions), Infrastructure as Code (IaC)

Systems & Networking: Linux, TCP/IP, DNS, Monitoring (CloudWatch), Agile, Compliance
